

Piyush Malviya – Unity Game Developer

📞: +91-8962775590 | ✉️: malviyapiyush35@gmail.com | 📍 Indore |  [LinkedIn](#)

PROFESSIONAL SUMMARY

Innovative Unity Game Developer with over 2.5+ years of experience specializing in 3D/2D hypercasual games, vehicle simulations, puzzle and immersive interactive experiences. Proficient in writing scalable C# scripts, implementing physics-based systems, level design, and optimizing game performance for Android and WebGL. Passionate about end-to-end game development and creating polished, engaging single-player experiences that push the boundaries of real-time rendering and user engagement.

KEY SKILLS

Unity 3D & 2D | C# Programming | Vehicle Simulation | Puzzle | Hypercasual | End-to-End Game Development | Level Design | XR Development | Performance Optimization | UI/UX Integration

TOOLS & TECHNOLOGIES

Scripting Languages: C# | **Version Control:** Git, GitHub | **Platforms:** Mobile, VR, AR, MR, WebGL | **Unity Engine:** Unity 2D/3D, Animation System, Particle Systems | **XR Technologies:** AR Foundation, Meta XR Development Toolkit SDK, DPVR SDK | **Programming Tool:** Visual Studio, Visual Studio Code

PROFESSIONAL EXPERIENCE

Unity Game Developer ZGen Studio	Delhi NCR(Remote), IN July 2026 - Present
AR/VR Developer STEMROBO Technologies Private Limited	Noida, IN Sept 2024 – February 2026
Unity Developer Intern ZGen Studio	Delhi NCR(Remote), IN April 2024 – July 2024
Jr. Unity Developer Abhiwan Technologies Private Limited	Noida, IN July 2023 – Dec 2023

KEY PROJECTS EXECUTED

Project: 3D Vehicle Simulation Game (Casual Single-Player) *Role: Unity Game Developer*

- **Overview:** A dynamic 3D Car and Bus simulation game focusing on engaging driving mechanics and challenging level design.
- **Key Achievement:** Successfully conceptualized and engineered the entire game architecture from scratch. Implemented realistic vehicle physics, custom input controllers, with driver and passenger pickup and drop system, vehicle customization and designed interactive levels that scale in difficulty. Optimized the rendering pipeline to ensure smooth 60 FPS gameplay on target devices.

Project: Candy Chef – 3D Hypercasual Game

Role: Unity Game Developer

- **Overview:** A casual candy-themed game focused on satisfying cutting mechanics, interactive gameplay, progression, and shop-based systems.
- **Key Contributions:** Developed the complete gameplay loop including candy cutting mechanics, player interactions, scoring/progression systems, shop system, UI integration, and game flow.
- **Implemented responsive gameplay mechanics and interactive elements using C# and Unity.**
- **Designed and integrated shop/economy functionality to support player progression and unlockable content.**
- **Optimized gameplay and assets for smooth performance on target devices.**

Project: Maze Puzzle Game 2D – Hypercasual Puzzle Game

Role: Unity Game Developer

- **Overview:** A casual maze-based puzzle game focused on navigation, problem-solving, and progressively challenging levels.

- **Key Contributions:** Developed maze generation/gameplay mechanics, player movement, level progression, collision detection, and puzzle logic.
- Designed progressively challenging levels to improve player engagement and replayability.
- Implemented UI, game states, win/lose conditions, and level completion flow using Unity and C#.
- Optimized gameplay systems for smooth performance on mobile platforms.

Project: Interactive Educational XR Simulations *Role: AR/VR Developer*

- **Overview:** A suite of educational simulations(K-12) utilizing both Virtual Reality and Augmented Reality to gamify learning.
- **Key Achievement:** Engineered markerless AR mechanics and gesture-based VR interactions, increasing user retention and engagement. Streamlined the asset pipeline to drastically reduce build size without compromising visual fidelity.

EDUCATION

- **Masters of Computer Application** | Birla Institute of technology, Noida|2023| 7.86 CGPA
- **Bachelors of Computer Application** | Govt. Nirbhay Singh Patel Science College, Indore|2020| 68.54 %
